

Annex B — Regulations for Concerts and Projects

Swiss School of Music · Zug

Version of 2 September 2026 · Translation. In the event of any discrepancy, the German version prevails.

1. Purpose and participation

During the school year and in the holidays the School organises masterclasses, concerts and events to raise the quality of its music and dance training, and supports outstanding students at competitions.

The School offers every student the opportunity to perform at least once a year; exemption is possible for good reason. Participation in a project is decided by the teacher together with a representative of the school management, on the basis of a video excerpt or an open lesson.

2. The School's own projects

The School runs its own projects and takes part in partner projects:

- “Wisdom and Youth” — concerts in care homes
- “Children play for children” — concerts with animated films
- Baby concert
- the School's own children's project — ballet and music performances

Compulsory participation

Students of the Performance Classes and the School's scholarship holders are required to take part in the School's projects: “Wisdom and Youth” three times a year, “Children play for children” twice a year, and performances twice a year.

3. Rehearsals and costs

The teacher sets additional rehearsals and informs the parents; at least one rehearsal of 30 minutes is required before each public performance.

The following costs may arise and are also set out in the price list: additional rehearsals at the usual hourly rate; concert tickets, where applicable; costume rental of CHF 25 per performance, or the full replacement value if a costume is damaged beyond repair; and other unforeseen concert costs such as catering and travel.

Rehearsals belonging to a school project that is compulsory for the student are included in the semester fee.

4. Consent

Please tick: ☐ takes part in concerts ☐ does not take part ☐ not yet decided

This Annex B forms part of the tuition contract and is signed separately.
